IN HONOR AND REMEMBRANCE OF
ANNA CHATMAN

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 11, 2006

Mr. KUCINICH. Mr. Speaker, I rise today in honor and remembrance of Anna Chatman, devoted wife, mother, grandmother, great-grandmother, businesswoman, community activist and friend and mentor to many.

Mrs. Chatman lived her life with great joy and in endless commitment to her faith, family and community. Together, she and her beloved husband, the late Reverend Marcellus Chatman, raised their daughters, Marcella Caffie and Ruby Alexander. Her devotion to family extended outward into the community, where she touched the lives of countless individuals through her focus on social justice and political empowerment. In 1969, Mrs. Chatman founded the Harvest Day Care Center. As owner and operator, she secured funding in order to provide quality day care for mothers on welfare, which enabled numerous parents to break through the wall of poverty by having a safe and affordable place to bring their children while they worked. The Harvest Day Care Center remains in operation today, run by Mrs. Chatman's daughter, Ruby Alexander.

Mrs. Chatman's inner light, dynamic personality and her ability to connect with people created lasting impressions on those around her and served to forever change the landscape of the Democratic Party in Cuyahoga County. Even though she had no prior experience in politics, then U.S. Congressman Louis Stokes asked Mrs. Chatman to accept the role of executive director of the 21st District Caucus (which became the 11th District Caucus), knowing she could rally the support of African-Americans who felt overlooked by the Democratic Party. Mrs. Chatman inspired and guided countless individuals to become empowered and involved in the caucus. Under her direction, the caucus evolved to become one of the most powerful political organizations in the Nation, attracting up to 50,000 people to the caucus's annual Labor Day picnic and existing as a catalyst of political action and societal justice.

Mr. Speaker and colleagues, please join me in honor and remembrance of Anna Chatman, whose joyous life reflected great joy and an unwavering focus on lifting the lives of others. I offer my deep condolences to her daughters, Marcella and Ruby; to her grandchildren, great-grandchildren and great-great grandchildren, and to her extended family members and many friends. Although she will be greatly missed, her singular life, framed by love, integrity, conviction and strength, will shine forever in the hearts of her friends and loved ones and will forever illuminate the soul and hope of our entire community.

HONORING MR. FREDERICK MURPHY'S RETIREMENT AS DIRECTOR OF THE SYRACUSE HOUSING AUTHORITY

HON. JAMES T. WALSH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 11, 2006

Mr. WALSH. Mr. Speaker, I rise today to pay tribute to Mr. Frederick Murphy. On June 30, 2006, Mr. Murphy retired as director of the Syracuse Housing Authority in Syracuse, NY.

A graduate of Ithaca College, Mr. Murphy's career in local community development began in 1965 when he went to work for the city of Syracuse Urban Renewal Agency under then Mayor William F. Walsh. Later, he headed the city's Code Enforcement Division until he was appointed executive director of the Syracuse Housing Authority on February 18, 1971.

As the director of the SHA, Mr. Murphy successfully oversaw the administration of a \$35 million annual budget operating 2,500 apartments and also managed the section 8 housing program. He helped secure more than \$180 million in Federal grants to modernize every public housing development and oversaw great growth and expansion of the program, building 550 new apartments of public housing during his tenure.

Mr. Murphy's service has made a lasting positive impact upon my hometown community. Throughout his career he has worked with many mayors and HUD secretaries to greatly improve Syracuse's public housing.

Mr. Murphy's dedication, knowledge and leadership are unparalleled and much appreciated. I wish him well in retirement, and thank him for a job well done.

HONORING THE GIFT OF LIFE

HON. TIMOTHY H. BISHOP

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 11, 2006

Mr. BISHOP of New York. Mr. Speaker, in these challenging times, it is refreshing to hear uplifting anecdotes of kindness and hope. I rise to recognize a tremendous source of these qualities on Long Island: the non-profit

organization known as Gift of Life, Inc., whose exemplary work benefits underprivileged children by helping uninsured and low-income families meet the cost of life-saving surgery.

Since Gift of Life was founded in 1975 by members of the Rotary Club of Manhasset, this truly remarkable organization has raised money for medical care and transportation of more than 3,000 children from across the United States and around the world whose families would not otherwise be able to afford such prohibitively expensive medical care. With 44 participating hospitals in the United States, I am proud to note that three are located on Long Island, including Stony Brook University Hospital, which has performed 450 of the heart surgeries.

Recently, Stony Brook partnered with the Suffolk County chapter of Rotary International and Gift of Life to help the family of Markus Dejong, a six-year-old boy from Farmingville who required an expensive operation to repair a defective valve in his heart. His father, an Iraq war veteran, was not insured or able to afford the cost of the operation and treatment. Fortunately, Gift of Life was there to help, and I am delighted to report that Markus' operation was successful. Following a recent visit to my office with his family, I am confident that he will grow up to be healthy and strong, with a normally functioning heart, thanks in large part to Gift of Life.

Mr. Speaker I strongly agree with Dr. Steven Whitman when he said, "We never stand so tall as when we stoop to help a child." Indeed, we would be hard-pressed to find more selfless and devoted Americans who could stand as tall as the Rotarians, translators, host families, medical professionals, surgeons, sponsors and other volunteers who have given so much to this premier life-saving program. I am privileged to recognize Gift of Life and every individual associated with its truly outstanding and inspiring contributions to our community and in support of those children who need our help the most.

RECOGNIZING EDGEWOOD INDEPENDENT SCHOOL DISTRICT'S EFFORTS TO INCREASE STUDENT INTEREST IN SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS

HON. CHARLES A. GONZALEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 11, 2006

Mr. GONZALEZ. Mr. Speaker, I rise today in support of Edgewood ISD's efforts to increase student interest in science, technology, engineering, and mathematics (STEM) careers.

It has become apparent that in this increasingly globalized world, our Nation's foothold as a global economic leader is becoming less stable everyday. Furthermore, in today's economy, jobs in technical fields are growing at five times the rate of other occupations, and they pay better. For these reasons, it is imperative that our young people develop the math and science skills that are instrumental in allowing them to become world leaders in technology and innovation, thus enabling the United States to maintain its global economic edge.

I am very proud of the efforts that Edgewood ISD is making to prepare its students with such skills. In 2001, Edgewood entered a team in the FIRST (For Inspiration and Recognition of Science and Technology) robotics competition as part of its Engineering Principles class. The Toltechs, also known as robotics team #499, have excelled in the FIRST competitions that require high school teams to design, assemble; and test a robot capable of performing a specified task. The students have shown great enthusiasm as they have gained proficiency in engineering and research. This excitement will no doubt encourage many of them to pursue careers in STEM fields.

Edgewood ISD has recognized the importance of this type of learning by supporting the

development and growth of the Toltechs over the years. The team has also received generous support from and strong partnership with a number of private industries in their community. The evolution of the Toltechs demonstrates how schools and private industry can work together effectively to make a significant positive impact upon the lives of students.

More recently, Edgewood ISD has adopted another program to develop student's STEM skills. The Space TEAMS pilot in San Antonio targets middle school students from low income families, particularly girls, through a robotics competition called Botball. This exciting new program promises to also yield enthusiasm about STEM fields.

I recognize and honor the important opportunities that Edgewood ISD has provided to its students through programs such as FIRST and Space TEAMS. The skills and knowledge that these experiences provide, not to mention the sense of confidence and pride that they create, will benefit participants long after they have finished their primary education. I wish them continued success in their competitions and hope to see these types of programs flourish in our Nation's schools as we acknowledge the importance of arming our kids with STEM skills.
